

Graphite

Benjamin Bass

6 April 2016

1

General Mineral Formula: C

Mineral Chemical Class:

Specific Gravity:

Hardness: 1/2

Cleavage:

Luster:

Streak: Black or Grey

Characteristic Color(s):

Crystal System:

Crystal Class:

Special: Feels greasy

Crystal Description (common forms, habit, etc.):
--

¹The greasy feel of the graphite and the black/grey streak will help to identify it. Also, it should be very easy to scratch because of its 1/2 hardness. You could write with this mineral, it should come off if it's even slightly rubbed.

Environment (where you find the material):
